

Spring Conference 2019

Cultural Heritage – Ownership and
Community Building

Östersund, 6-7 February 2019

During NCK's 2019 Spring Conference we will look at the potential of cultural heritage in processes that are aimed at strengthening social cohesion and active citizenship. A central question is how heritage institutions can create a space where society can contribute and communities actively own their heritage.

More information and a link to registration will be uploaded on NCK's homepage soon: <http://nckultur.org/> If you have questions, please contact: info@nckultur.org.
